Replies to pre-bid queries

SI No	RFP Reference Para/Section	Clarification sought.	ASRLMS Response.
1.	Qualification Criteria Pt. No. D	The Bidder requested to consider FY 2018-2019, 2019-2020 Annual Financial statements for evaluation of Qualification criteria.	It is clarified that no changes have been made in the Qualification criteria Pt. No D under Annual Average Turnover.
2.	Technical Specification, Pt. No. 6	The Bidder sought clarification on kind of validations in input forms.	It is clarified that Basic Validation will be like Min-Max number range, field type validation etc.
3.	Technical Specification, Pt. No. 7	The Bidder sought clarification about specific reason for development of the Mobile App in the Microsoft Platform. Is it due to the compatibility with the existing system.	It is clarified that the Existing system is in Microsoft platform. To increase compatibility with the old system, the new system is requested to be made in Microsoft platform.

4	Technical Specification, Pt. No. 11	The Bidder sought clarification that, as mentioned the data entry user will be in offline mode. In that case the users' need to use some other electronic medium to transport the storage file/files in the device to the block level data approver user for further processing. Is there any specific reason of not including the data entry user in the online mode. Is it because of the poor internet connectivity in the remote locations?	It is clarified that Offline mode is required due to poor availability of internet in rural areas.
5	Technical Specification, Pt. No. 10	The Bidder sought clarification that . as mentioned the app(s) needs to be published in Google Play Store for Download. There is a certain cost associated for publishing it. In that case the vendor has to include that cost included the "Price Bid".	Yes, it has to be included.
6	Technical Specification, Pt. No. 11	The Bidder sought clarification that, whether separate app is required or it will be managed through a web portal for the users of higher levels (the district level users, state level users) for progress monitoring and report generation. This clarification will give a clear picture about the timeline of the work and help in quoting in the "Price-bid"	It is clarified that, No separate app is required for program monitoring or report generation at District or state level. It will need to be managed through web portal.
7	Technical Specification, Pt. No. 12 (c) and (d)	The Bidder sought clarification on Reports and Analysis that: When will it be decided? What are the tentative no. of report types that will be required to develop? This clarification will give a clear picture about the timeline of the work and help in quoting in the "Price-bid"	It is clarified that the Reports required are – Program progress monitoring of the field level user. It will need to be available on the mobile app as well as web portal.
8.	-	The Bidder sought clarification about expected timeline of the work/project from ASRLM?	It is clarified that expected timeline of the work/project will be 30 days from the date of awarding of contract.

9.	-	<p>The Bidder sought clarification whether the database of Livelihood Tracking software and LTS Online MIS Portal are same.</p> <p>Whether the proposed mobile app has to upload survey data to livelihoods tracking software or directly to LTS Online MIS portal?</p>	<p>It is clarified that both are same portal and the android based mobile app will be used to upload all the data in the portal's database.</p>
10.	-	<p>The Bidder sought clarification whether hosting of the database to be used by the mobile application.</p>	<p>It is clarified that Hosting of the android application needs to be done in Google Play store for widespread access and ease of updating.</p>
11.	-	<p>The Bidder sought clarification whether this app will be primarily used for EOL (Ease of Living Survey)</p>	<p>It is clarified that; the app will be used for Livelihood Tracking Software. The EOL Survey, which has already been carried out may be used as a guide for app feature sets.</p>
12	-	<p>The Bidder sought clarification that since this app will have to sync with an existing Server, we will need REST Services. It is required to confirm whether the REST Layer is already there in the existing architecture, if not whether it has to be designed and developed.</p>	<p>It is clarified that; REST Services are not implemented in this server. The developer of the app will need to develop it, if the need arises.</p>
